Task 5

Multi-factor authentication

An official website of the United States government Here's how you know

LOGIN.GOV

Authentication method setup

Add another layer of security by selecting a multi-factor authentication method. We recommend you select at least (2) two different options in case you lose one of your methods.

- [ ] **Face or touch unlock**
  Your device scans your face or fingerprint and confirms the information is a match to the images you already have stored on your device. We do not copy or store these images.

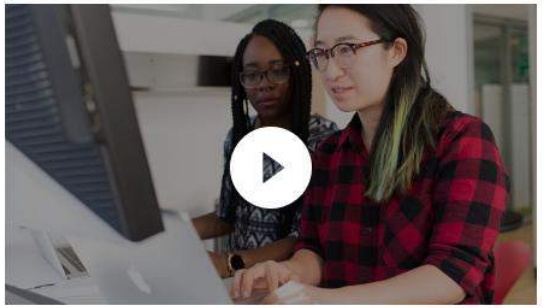
- [ ] **Security key**
  A physical device, often shaped like a USB drive, that you plug in to your device.

- [ ] **Government employee ID**
  PIV/CAC cards for government and military employees. Desktop only.

- [ ] **Authentication application**
  Download or use an authentication app of your choice to generate secure codes.

- [ ] **Text or voice message**
  Receive a secure code by (SMS) text or phone call.

What is multi-factor authentication?



How do I pick the right authentication method for me?

A security key was added to your account.

You've added your first authentication method! Add a second method as a backup.

Adding another authentication method prevents you from getting locked out of your account if you lose one of your methods.

Add another method

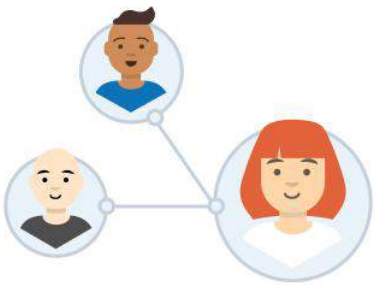
www.myhealth.va.gov

Ensure the security of your MHV account by reviewing who has access and what information you've shared with them.

You have shared access to your account with:



- **Lynda Johnson**
  Full Access
- **Alan Johnson**
  Appointments & Prescriptions Only

If you want to change this:

1. **Edit who has access** or which level of access they have, click here.
2. **Update your password** here, if there is anyone who you shared your username/password with who should no longer have access to your account.
