Introduction 2

WELCOME TO THE SPRINT 6 DEMO

At the end of each sprint on Tuesdays, the team will run sprint reviews to showcase the sprint's work for approval. The purpose of this meeting is:

**1** To demo the accomplishments or functionality that was built over the past sprint

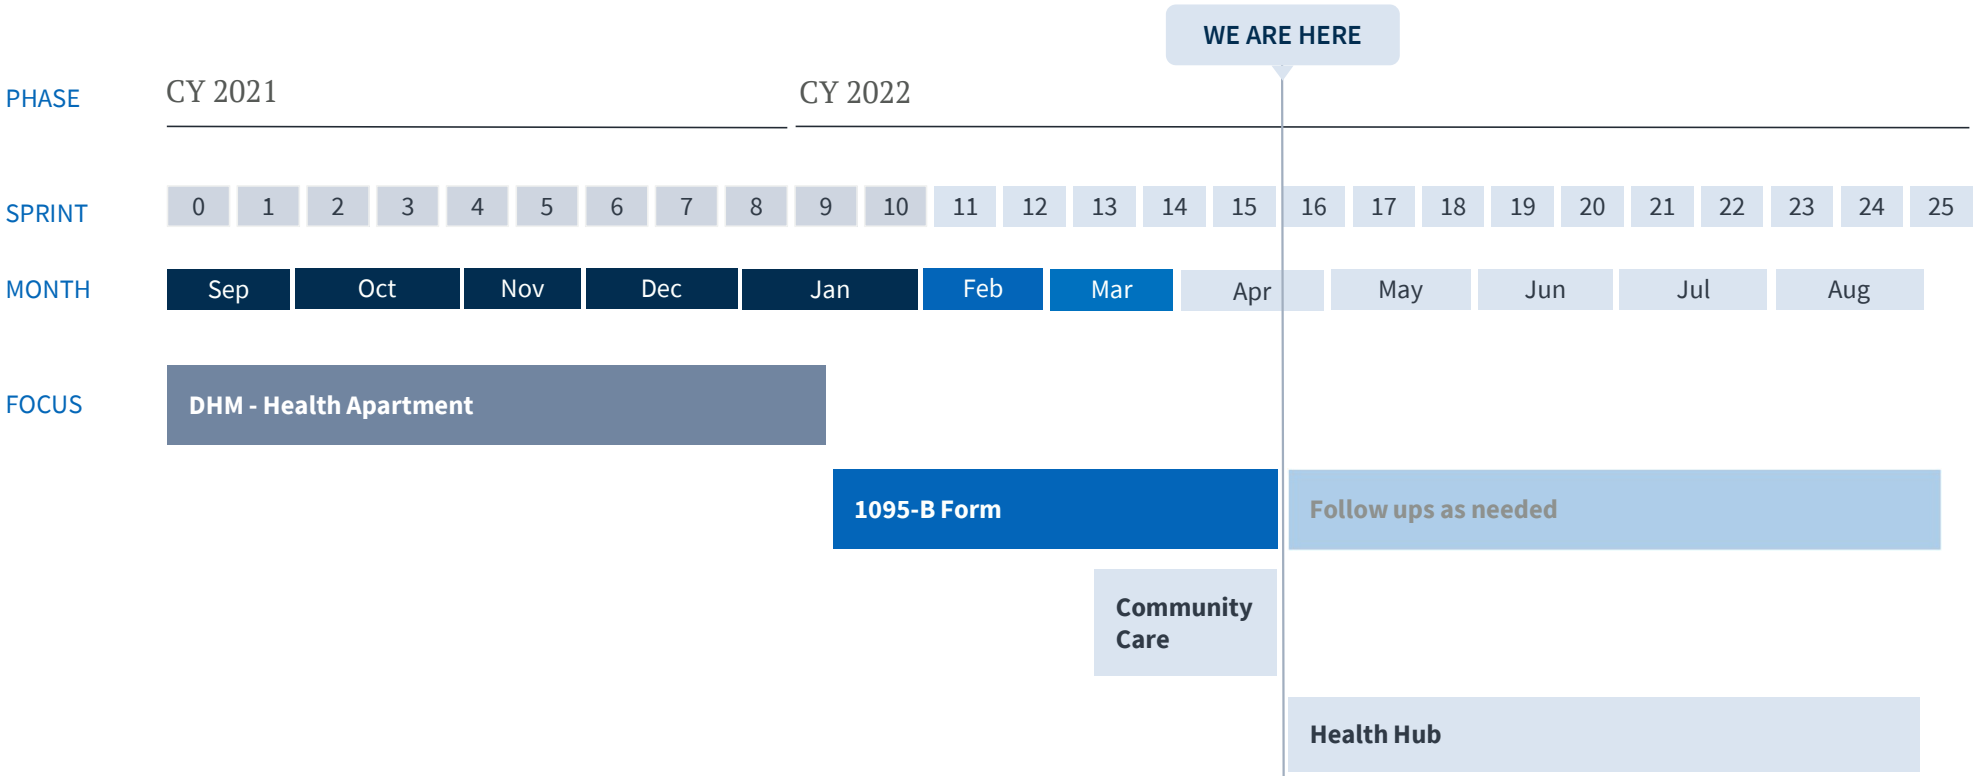

**2** To get feedback and insights early and often

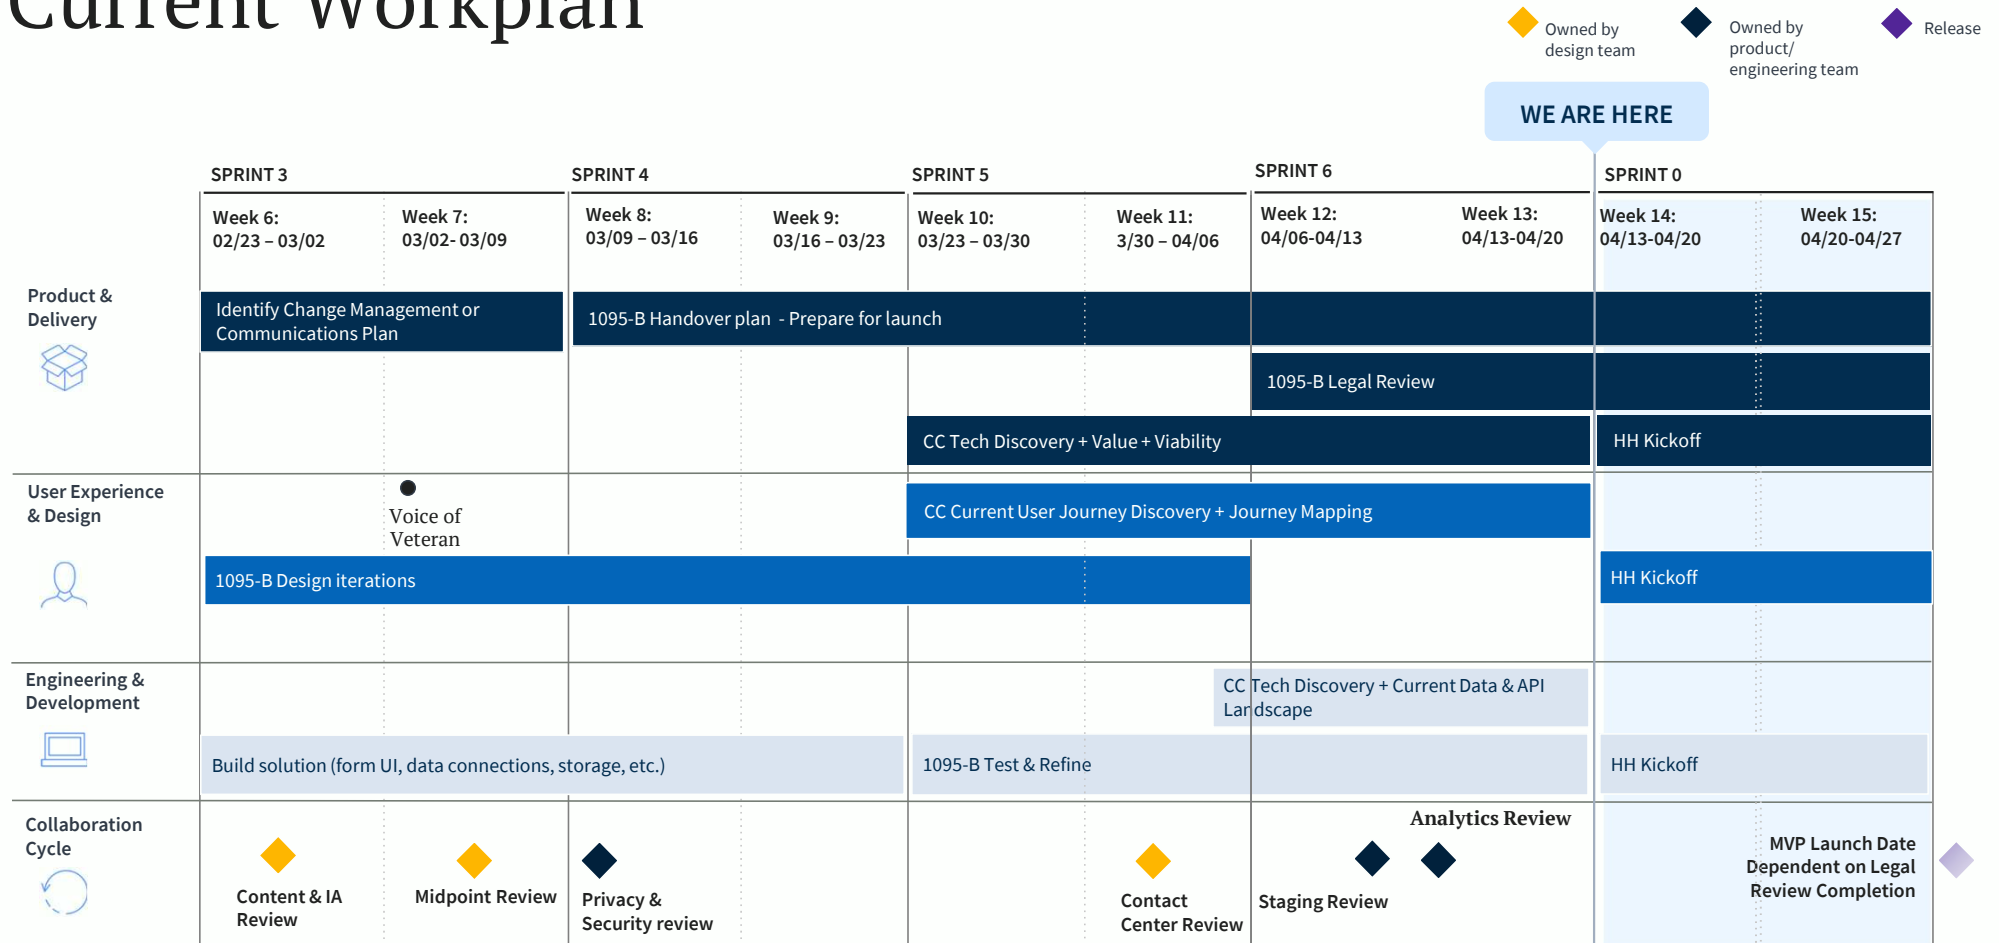

**3** To create transparency for anyone interested on the product and progress

# Roadmap overview

# Current Workplan

\*Does not show post-MVP Validate phase meetings in Collaboration Cycle, such as Full Accessibility Audit and Post-Launch Check In

# Agenda

**Sprint Goal:** For sprint 6 we focused on getting the 1095-B launch-ready and continuing our discovery into the Community Care technology landscape.

## 1 DESIGN

- A. Updated designs and content to reflect the ability to change one's address for 1095-Bc
- B. Aligned CC landscape with tech

## 2 TECH

- A. Completed 1095-B build
- B. Technical deep dive on community care
- C. Updated Mural with CC technology system touchpoints

## 3 PRODUCT

- A. Completed Staging review for 1095-B
- B. Deep dive on CC VHIE (Veterans Health Information Exchange)
- C. Deep dive on CC VDIF EP (Veterans Data Integration & Federation Enterprise Platform)

We welcome all feedback! Feedback will be collectively reviewed and prioritized appropriately based on where it stacks against other stories in the backlog as well as technical feasibility.

SPRINT 6 DEMO

# 1095-B Overview

## OVERVIEW

# Project objectives

Digitize 1095-B form on VA.gov so Veterans can easily access the form and download the form for their records.

# We got the 1096-B launch-ready (and approved!)

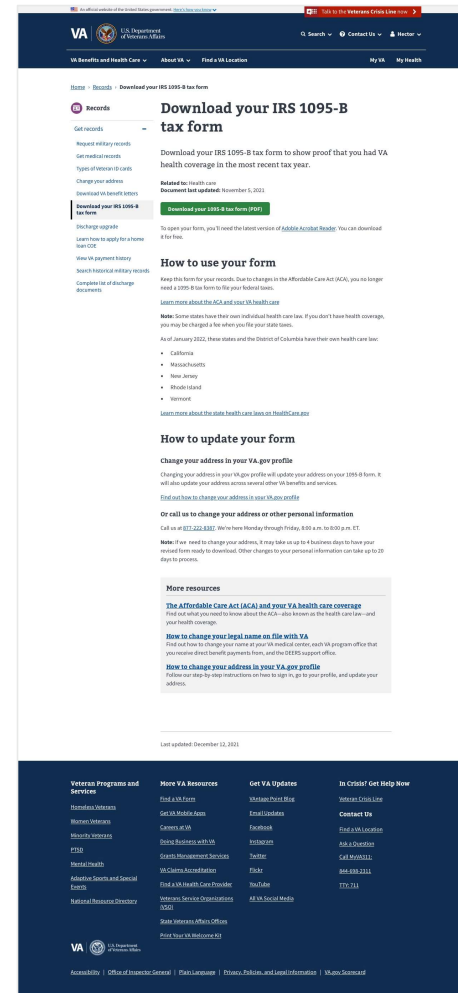

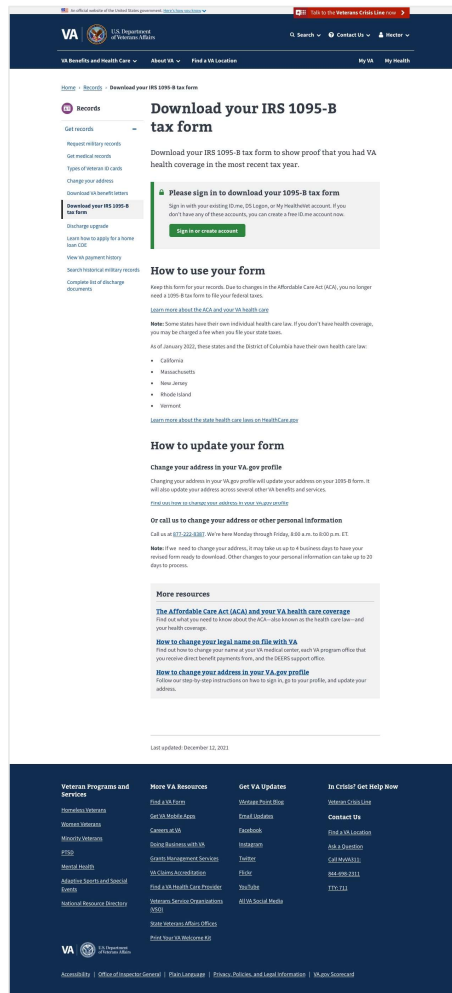

[User Story](#): Conduct design QA of coded designs

[User Story](#): Iterate designs from staging review feedback

[User Story](#): Collaboration cycle: staging review

[User Story](#): Make updates to code based on feedback from VA GitHub review for staging

- Went through Staging Review on April 12 and were cleared for launch. Accessibility and UAT will happen post-launch
- Coordinated content feedback tickets with sitewide team

[GitHub Link](#)

Design 9

# We validated that an updated address reflected in both VA Profile and the HEC, and iterated our designs to match

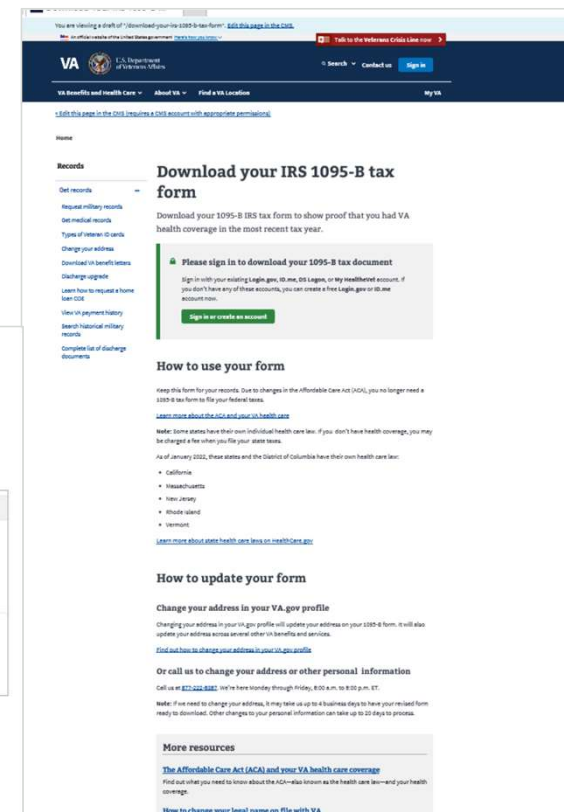

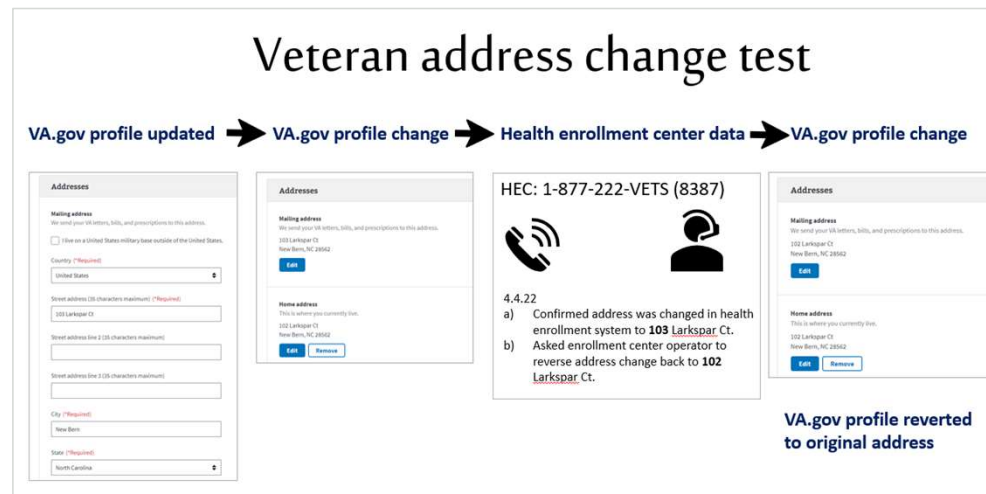

User Story: Update materials for HEC and contact center to reflect address change using VA profile

User Story: Iterate designs to include content and address change by sitewide

User Story: Address change option built into landing page

User Story: Verify enrollment system address can be updated from profile

- Confirmed that if a Veteran updates their address in VA profile, it's reflected in the HEC enrollment system, and vice versa
- If a Veteran updates their address on profile, they still must wait up to four days to receive a corrected 1095-B
- Communicated changes to sitewide team

## 1 DESIGN

# We drafted a final confirmation notification for a Veteran who opts-in to digital delivery

User Story: As a Veteran, I want to be informed that my 1095-B will only be delivered digitally when I opt-in to digital delivery

From: U.S. Department of Veteran Affairs

Subject: Paperless delivery confirmation IRS 1095-B tax form

[First\_Name],

You have successfully enrolled in paperless delivery for your IRS 1095-B tax form. Moving forward, you will no longer receive a copy of this form in the mail. To download and/or print a copy of your most recent tax year's 1095-B, visit: <https://www.va.gov/records/download-your-irs-1095-b>.

Thank you,

VA.gov

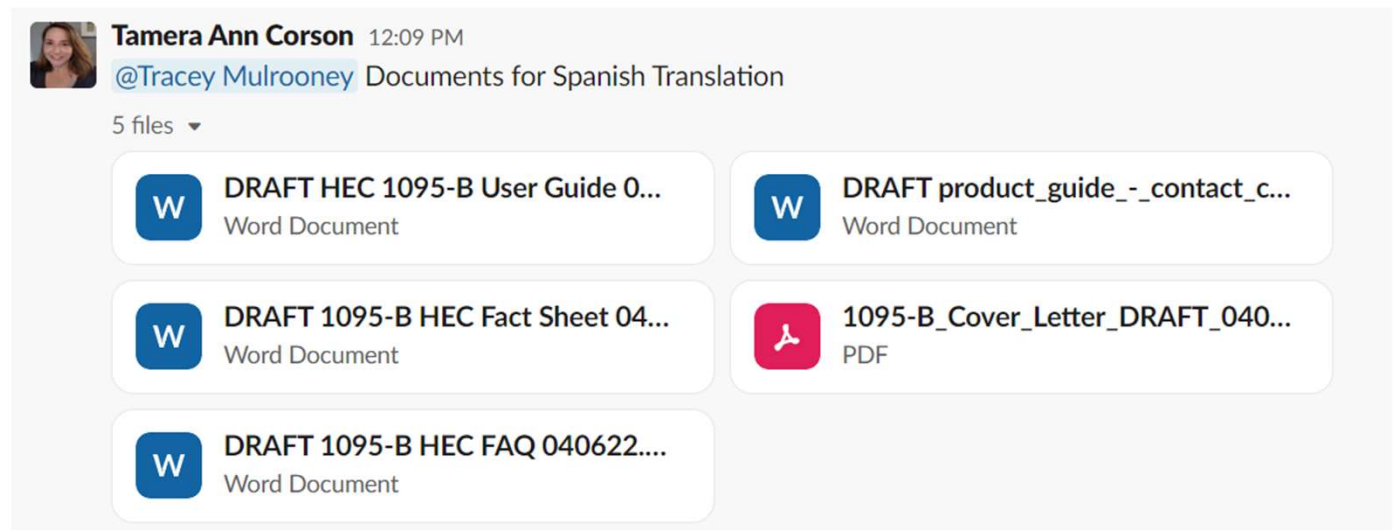

Update your notification preferences at: <https://va.gov/profile/notifications>.

### 3 PRODUCT

## We started the process of getting all required 1095-B documents translated into Spanish

User Story: Understand what is needed to translate HEC documents into Spanish and the impact on timeline

A screenshot of a Microsoft Teams chat interface. At the top, a message from Tamera Ann Corson (@Tracey Mulrooney) is shown, dated 12:09 PM. The message content is "Documents for Spanish Translation". Below the message, there is a section titled "5 files" with a dropdown arrow. This section displays five file cards arranged in two columns. The first column contains three Word documents: "DRAFT HEC 1095-B User Guide 0...", "DRAFT 1095-B HEC Fact Sheet 04...", and "DRAFT 1095-B HEC FAQ 040622....". The second column contains two files: a Word document titled "DRAFT product\_guide\_-\_contact\_c..." and a PDF file titled "1095-B\_Cover\_Letter\_DRAFT\_040...". Each file card features a blue 'W' icon for Word documents and a red PDF icon for the PDF file.

# Blockers for 1095-B launch

BLOCKER	OWNED BY	ACTION NEEDED	DATE ENTERED	STATUS	NOTES
Legal review	Tarsha Tremble (Business Owner)	<ul style="list-style-type: none"><li>Business Owner is seeking a POC with the Office of General Counsel to understand requirements for legal review and timeline</li></ul>	Sprint 3 - 3/2/22		Team is awaiting further word on legal review after follow up from Chris Johnson
Frontend re-design by sitewide content team	Danielle Theirry, Sitewide Content Team	<ul style="list-style-type: none"><li>Sitewide Content has redesigned our front-end designs when building it in Drupal to comply with Drupal standards</li><li>1095-B team to handoff the download button in widget to Sitewide content, then Sitewide content team will pull in the widget to the front end and own the full front end</li><li>Sitewide Content to own and manage any changes on the front end as part of their timeline</li><li>Sitewide Content to define launch date, since they own front end</li></ul>	Sprint 4 – 3/15/22		Team passed the following Collaboration Cycle milestones, with our version of designs: <ul style="list-style-type: none"><li>Midpoint Review on 3/04/22</li><li>Content &amp; IA Review on 3/09/22 (finalized URL)</li></ul>
PDF Accessibility	Tarsha Tremble (Business Owner)	<ul style="list-style-type: none"><li>Team received PDF from IRS, but PDF is still not accessible once it is populated with data</li></ul>	Sprint 3 – 3/3/22		Team is awaiting further word from 508 office

# 1095-B Remaining actions, with external dependencies

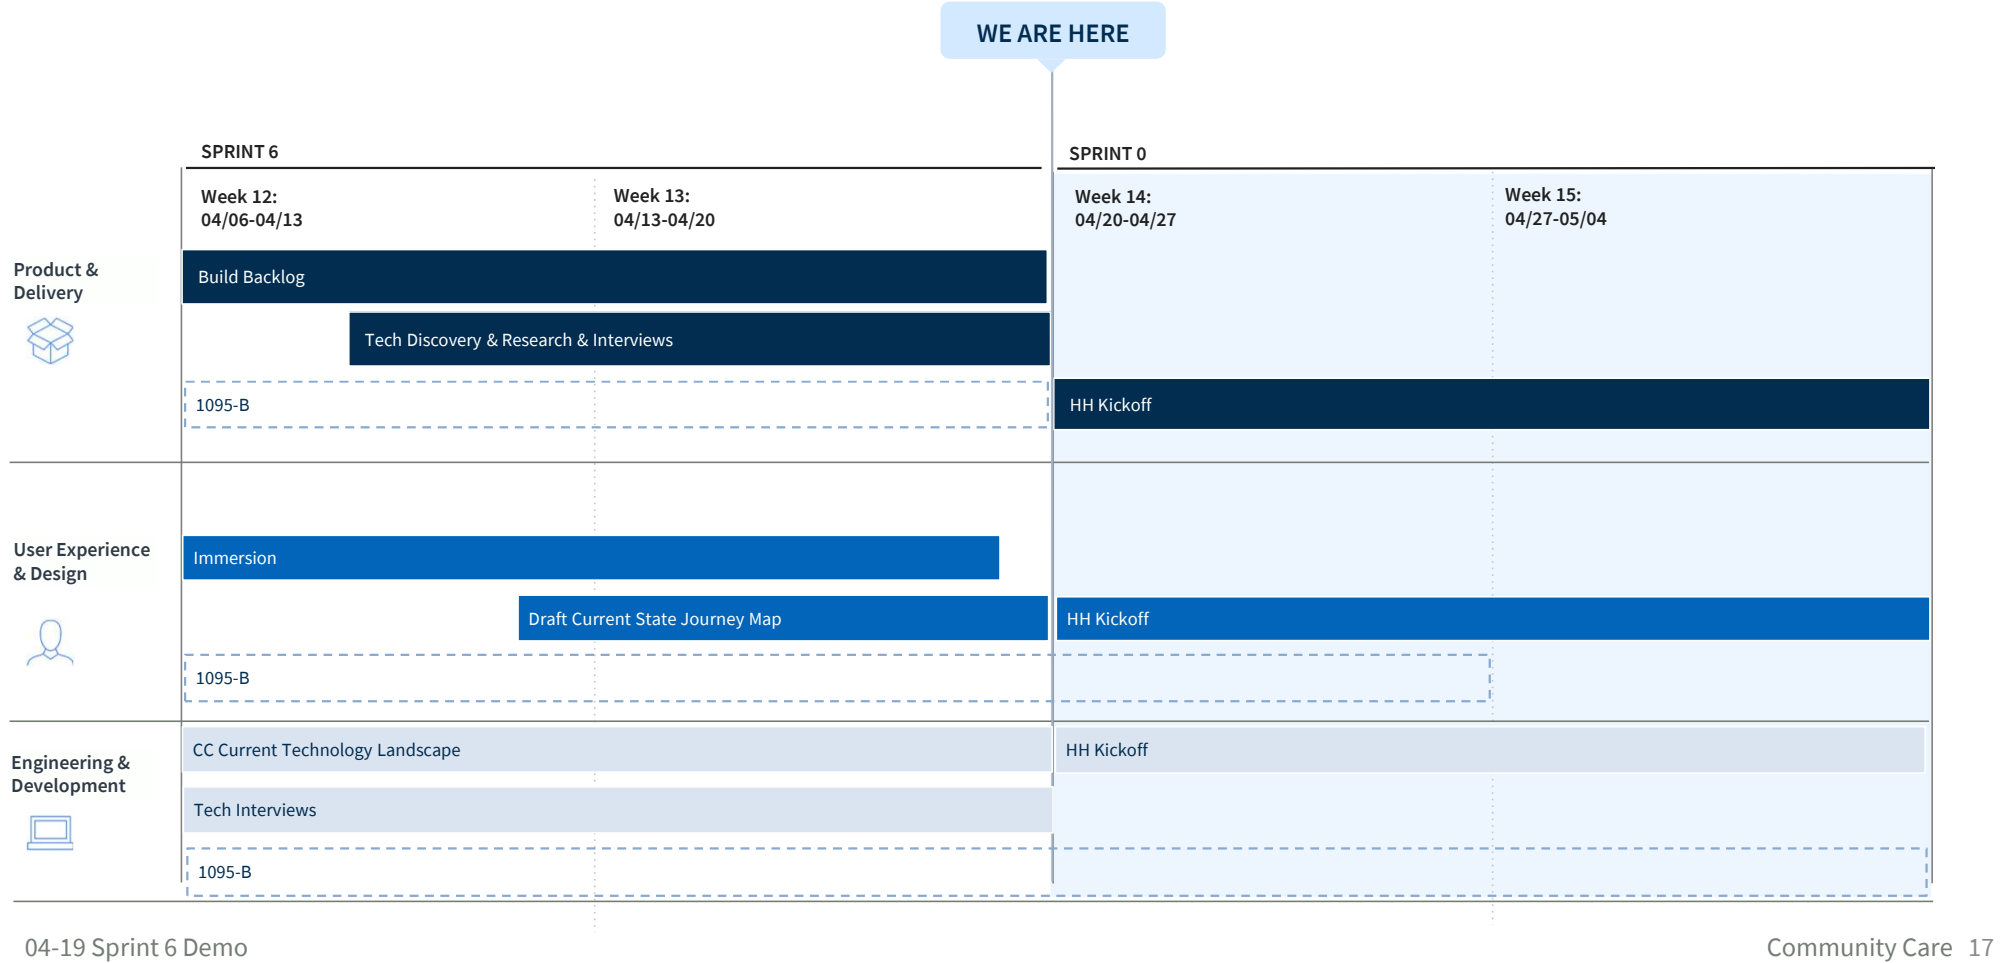

ITEM	WORK STREAM	ACTION NEEDED	TARGET COMPLETE DATE	PREREQUISITE
Tech refinements & testing	Tech	<ul style="list-style-type: none"> <li>Update backend and react widget as needed based on staging review and UAT feedback</li> <li>Build out and conduct testing</li> </ul>	March – end of Sprint 5	Product complete in staging
UAT	Product & Tech	<ul style="list-style-type: none"> <li>Follow Collaboration Cycle guidelines for UAT</li> <li>Identify Veterans within VA to conduct UAT, send access, and follow up to ensure testing complete</li> </ul>	March – April	Product must be complete in staging
1095-B Opt-in	Product	<ul style="list-style-type: none"> <li>Follow up with HEC and Profiles team to ensure opt-in is done</li> <li>Update draft communications and announcement plans, based on when opt-in will be launched</li> </ul>	April - May	HEC and Profiles commitment to building opt-in
Legal Review	Product	<ul style="list-style-type: none"> <li>Work with Tarsha to complete legal review</li> </ul>	March – April	POC name from Tarsha
Post Launch Check- In	Product	<ul style="list-style-type: none"> <li>Complete Collaboration Cycle milestone to KPIs post launch</li> </ul>	TBD (One month after launch and announcement)	Product launched in prod
Links from VA.gov pages to 1095-B	Product & Design	<ul style="list-style-type: none"> <li>Work with IA team to have other identified pages within VA.gov (e.g., ACA page) link to the 1095-B page</li> <li>Work with IA team to have 1095-B page added to navigation and be found in VA.gov search</li> </ul>	April or later	Product launched in prod; aligned on comm plan with Tarsha, Tracey
1095-B update strategy	Product	<ul style="list-style-type: none"> <li>Align on who will own 1095-B long term, including updating the PDF template each year</li> </ul>	April or later	Product complete and launched in production
Communications to announce launch	Product & Design	<ul style="list-style-type: none"> <li>Work with Tarsha and HEC team to refine drafted communications and align on plan and timeline to announce 1095-B launch to Veterans</li> <li>Work with VA Notify team to build and launch communications on their platform</li> </ul>	October - December	Product launched in prod; aligned on communication plan with Tarsha/Tracey

SPRINT 6 DEMO

# Community Care

# Community Care focused workplan v2

We conducted a high-level technical discovery into the systems that drive Community Care

**User Story:** CC: Iterate journey map based on additional findings from discovery activities

User Story: CC: Deeper dive into technical discovery with business partners(s)

User Story: CC: Overlay tech finding(s) on journey map

Blue Story: CC: Draft high-level current state of data elements (system of records)

We built a catalog of the **systems** that are used in Community care, mostly using online publicly-available sources of information. We had a few conversations with other technology teams to validate and expand on information we'd found.

# Community Care

## Technical Decision

### Objective

Our overall objective is to get a holistic understanding of the system involved in Community Care in 2016. We spent about 10 weeks on this, including a relatively lean-scaled 12% of the budget. By the end, we had been able to build a list and accounted for 20% of the budget.

### Methods

We used several methods to conduct this technical decision:

- Interview executives for publicly available information, user guides, and code.
- Consulted APIs.
- One meeting with the Community Care Eligibility API team to determine the data and the technical details.
- One short one-hour technology leadership meeting with Community Care technology representatives and leaders.

### Technical landscape

This section is organized by vendor, eligibility, enrollment, appointments, records, prescriptions, billing and messaging and communications.

### Resources

- [Technical website](#)

### Eligibility

#### Enrollment System API

Using a Vision Integration Control Number (VICN) this API returns the individual's residential address and eligibility (i.e., urgent care) (i.e., Grandfathered), (H), (Healthplan), (N), (no full service visit facility).

#### Community Care Eligibility API

This is one of the six LightHouse APIs. The Community Care Eligibility API uses the Enrollment System API.

#### Resources

- [Community Care Eligibility API](#)
- [Eligibility](#)
- [Eligibility](#)

#### Literatures

- The test lists criteria, best practice interest and quality standards, an objective criteria outside the scope of this API.
- The API does not take an appointment wait time.
- [Find criteria for this API](#)
- There is also an API for [Community Care Eligibility API](#) and [Community Care Eligibility API](#) for medical history.

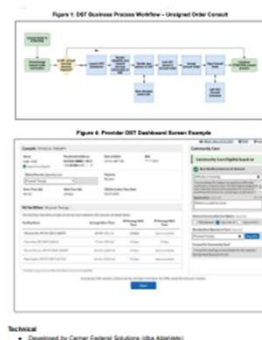

#### More details about the API

- Why use this API?
- The NACS team.
- Does the Decision Support Tool use the Community Care Eligibility API?
- Is there one?
- Why does the API not do eligibility calculations based on appointment wait time?
- This is a complicated feature that other APIs do not have.
- What are the reasons for the API? Are there any features that are going to be developed?
- There is no future roadmap.
- Knowing something about quality standards, why is that considered subjective?
- Both quality standards require human interpretation because there is no data source that could help.

#### Decision Support Tool

Allows one to quickly review the criteria in the VA MEDSONG API of 2016 to determine if a selection is eligible and would be best served using Community Care. It also determines the decision in the Veterans' health record.

This is part of the Comprehensive Patient Record System (CPRS) control number workflow that is accessed through CPRS. Users must have the control number enabled.

## Technical discovery document

Systems touchpoints are overlaid on the journey map

SPRINT 6 DEMO

# Preview of Sprint 1

# Sprint 1 of Health Hub will focus on

Next sprint demo: May 3<sup>rd</sup>

\*Stories subject to change during  
Sprint planning

## 1 PRODUCT

- A. Initial discovery
- B. Vision framework formulation
- C. Business partners identification

## 2 DESIGN

- A. Conduct initial discovery of current state of health products on VA.gov
- B. Create list of potential business partners for discovery

## 3 TECH

- A. Conduct initial tech discovery of current health products on VA.gov
- B. Map out high-level data flows through current state
- C. Create list of potential business partners for discovery

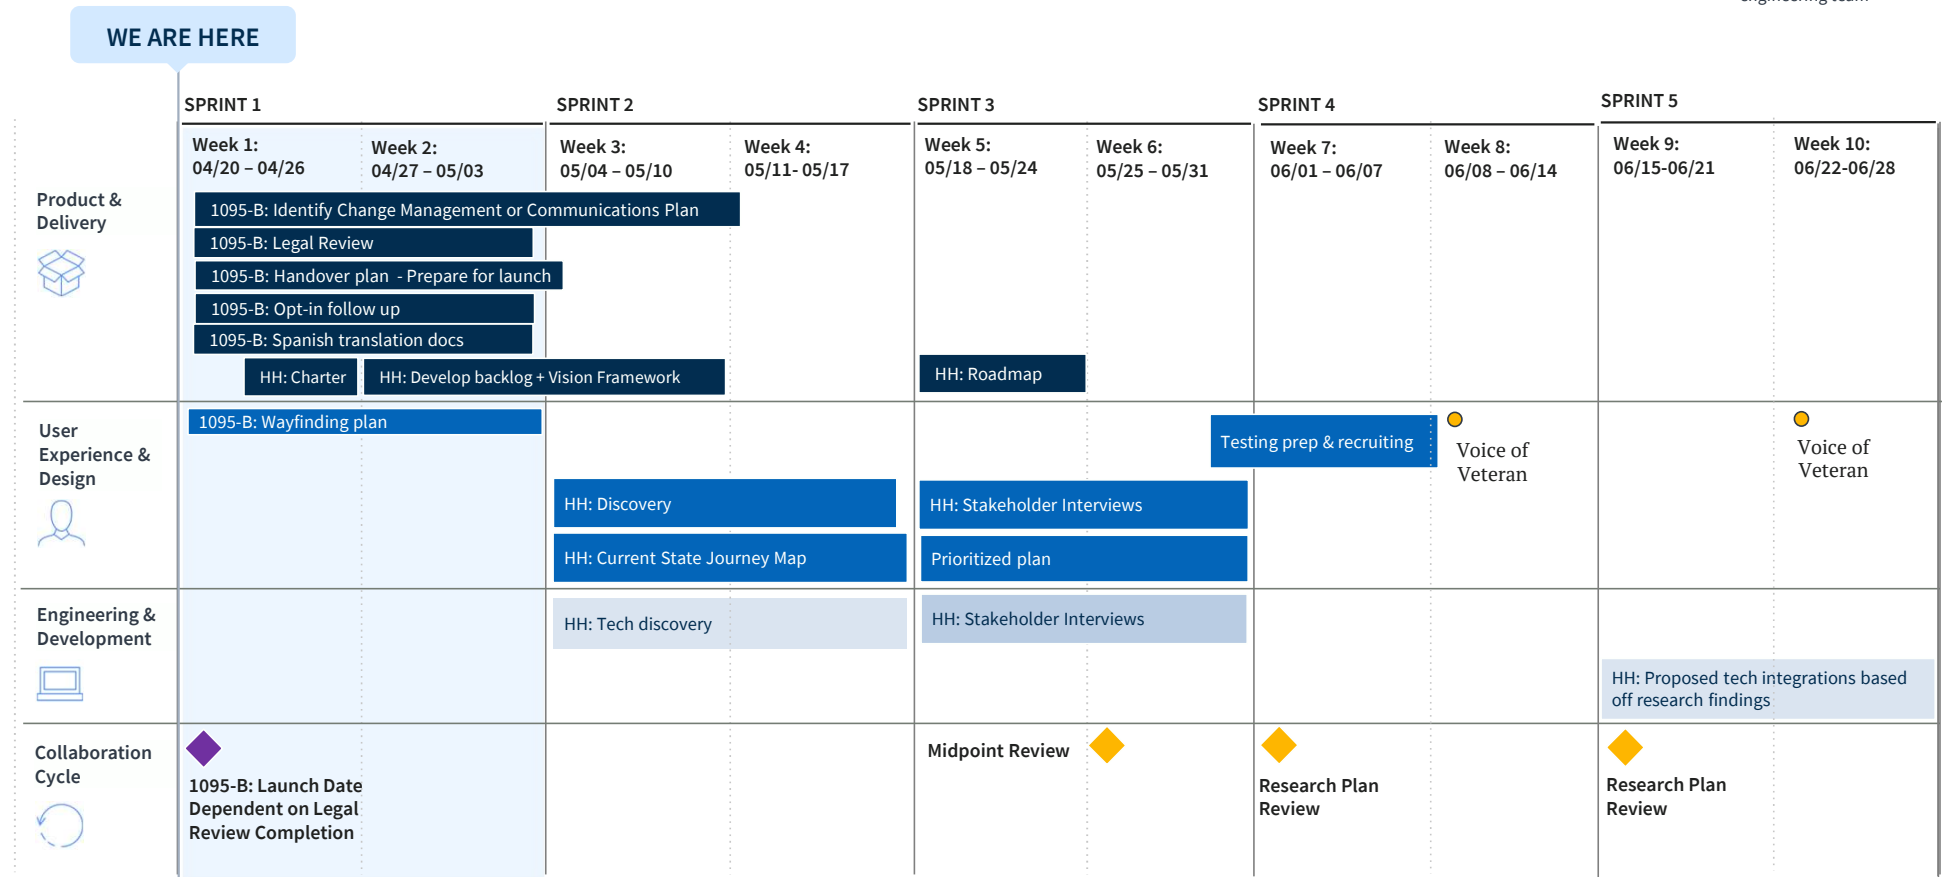

# Sprint 1 will run April 20 to May 3<sup>rd</sup>

Owned by design team

Owned by product/  
engineering team

Release

\*Does not show post-MVP Validate phase meetings in Collaboration Cycle, such as Full Accessibility Audit and Post-Launch Check In; Contact Center Review adjusted to 3 weeks before launch as approved by Jason Woodman

Preview of Sprint 7 25

SPRINT 6 DEMO

# Appendix

# 1095-B Team velocity

## Velocity details

- Velocity estimated in story points, using Fibonacci
- Velocity in Sprint 6 accounted for 11 team members
- 84 total story points were completed; Team committed to 81 story points at beginning of the sprint, 11 were blocked, 3 removed, and 17 additional story points added.
  - 11 story point blocked due to a) inability to test accessibility in staging environment, must complete during dark launch b) outstanding assistance request ticket with VA 508 office; adding to next sprint unless further blocked by legal review
- 3 story points were removed due to inability to conduct discovery with care navigators.
- 17 story points were added due to onboarding 3 new team members (15) and midcycle addition of combining tech discovery with design discovery on journey map (2).
- All collaboration cycle events and follow up on tickets submitted in prior sprint were not assigned story points

# Project risks and mitigation strategies

Munish to update

Submitted as part of the Monthly Report for March

RISK AND IMPACT	MITIGATION STRATEGY	DATE		STATUS	NOTES
		ENTERED	CLOSED		
IRS stakeholder is outside of VA ecosystem. Building without guidance or legal review regarding compliance with IRS regulation could result in risk.	Conduct research on available information surrounding current IRS 1095-B tax form regulations. Seek legal review through VA resources as directed by VA-PO and Business Owner	1/20/22	2/11/22		VA Business Owner clarified that IRS review is not needed
Team had previously confirmed with Business Owner that legal review was not needed. Business Owner clarified that legal review would be needed as of March 2nd	Business Owner is seeking a POC with the Office of General Counsel to understand what is needed and potential launch impact	3/2/22			Launch blocker
Data requires storage in a S3 bucket that the enrollment system can have access to in production; process to create the staging and production bucket does not have a clear timeline. Without the S3 bucket in prod with enrollment system access, product cannot be built in prod	Daily follow-ups with Jesse House and Mike Chelan (infrastructure team)	3/1/22	3/24/22		S3 bucket now in place. Risk resolved.
Business owner raised User Acceptance Testing should be done with HEC Call Center	Requested Business Owner to schedule UAT with required individuals for mid-March and book as early as possible	3/2/22	3/25/22		Business owner confirmed that UAT can be done through Collaboration Cycle and does not have to be done with HEC team
Feedback from Content and IA Review has taken over a week to come in; feedback is changing our proposal for the H1 and delaying confirmation of where the 1095-B landing page should live, which in turn delays our ability to complete the front end (top nav and side nav bars)	Design team pushing on IA team to confirm final answer of where 1095-B landing page should live and what the H1 header title should be	03/04/22	3/8/22		URL confirmed 3/7 EOD; IA review now closed
Designs were approved as part of Midpoint Review. Afterwards, Sitewide Content stated they would need to build our front end in Drupal and change our designs, impacting our in-flight build.	Design team met with Sitewide Content to align on redesigned front end. Tech working with Sitewide Content to send over our dynamic widget to be pulled into their static front end. Sitewide Content now owns the front end build.	3/10/22			Launch date dependent on Sitewide Content ability to launch front end
