Hello Mr. Sheehan

Tamera Corson is inquiring about the 1095-B form from IRIS that is not compliant. The ticket was forward to 508 Integration based on the fact that it was an interagency form that the VA needed to us, but it was not compliant. This was brought to our attention by Martha Wilkes. I am not aware of the resolution for this issue. An audit was done on the native IRS form and with it being completed by this team, and both failed 508 compliance.

Appreciate any guidance you can provide or the next step that the team can take to remediate these defects.

Regards

Dan Diddle

Tracey Mulrooney, Jordan White, and you

**Tracey Mulrooney** ✖ 7 days ago

@channel We are approved to release the digitized version of the 1095B form!!

**Tracey Mulrooney** ✖ 7 days ago

We have to wait for the opt-in for digital delivery functionality because that requires OGC review but what we have right now is good to go!

**Jordan White** 7 days ago

Wow!!! Excellent news!

Jordan White, Carl Dickerson, and 2 others

**Tracey Mulrooney** ✖ 4 days ago

We received a quote back from State to translate the 1095B website and all documents. Are all documents final? If yes, how much would have to change once the opt-in functionality is available ?

**Tamera Ann Corson** 4 days ago

[@Carl Dickerson](#) [@Jordan White](#) Please read above.

New

**Jordan White** 1 hour ago

All documents are final. As far as what would need to change, if we wanted to communicate the opt-in functionality, then all documents would need to reflect that.

**Carl Dickerson** 1 hour ago

How much would have to change? Depending on where opt-in lived and functions we'd have to add a section to the product guide on the opt-in function with screenshots. We'd also want to callout on fact sheet, FAQ and HEC guide.
