IRS 1095-B Tax Form Overview

IRS Form 1095-B reports the months a person had qualifying minimum health coverage to the IRS. Currently the VA mails this form out to Veterans at the beginning of the year (between December and March). The process is costly, and many are returned to due inaccurate address. In order to ensure delivery to Veterans and to decrease some of the costs associated with mailing this form, we have now made the 1095-B available for online access via digital download of a pdf from their records on Va.gov.

Changes to the Affordable Care Act have reduced the federal tax penalty for not having health coverage to \$0; so, in most cases the 1095-B will simply be a document to keep for one's records. As of March 2022, six states—Massachusetts, New Jersey, Vermont, California, Rhode Island and District of Columbia (Washington D.C.)—still have individual coverage mandates that may result in penalties for not being insured and so Veterans should refer to any local IRS instructions, as applicable, for retaining this form and filing their state taxes.

Target launch date: August 28 for MVP
