Functional Status: Functional Independence Measurement (FIM) Scores

No Data Provided for This Section

Medications: VA Dispensed and Non-VA Documented (Obtained Outside VA)

Section Date Range: 1) prescriptions processed by a VA pharmacy in the last 15 months, and 2) all medications recorded in the VA medical record as "non-VA medications". Pharmacy terms refer to VA pharmacy's work on prescriptions. VA patients are advised to take their medications as instructed by their health care team. The data comes from all VA treatment facilities. Medication information from the new VA electronic health record is not included.

Glossary of Pharmacy Terms: Active = A prescription that can be filled at the local VA pharmacy. Active: On Hold = An active prescription that will not be filled until pharmacy resolves the issue. Active: Susp = An active prescription that is not scheduled to be filled yet. Clinic Order = A medication received

during a visit to a VA clinic or emergency department (**currently not available**). Discontinued = A prescription stopped by a VA provider. It is no longer available to be filled. Expired = A prescription which is too old to fill. This does not refer to the expiration date of the medication in the container. Non-VA = A medication that came from someplace other than a VA pharmacy. This may be a prescription from either the VA or other providers that was filled outside the VA. Or, it may be an over the counter (OTC), herbal, dietary supplement or sample medication. Pending = This prescription order has been sent to the Pharmacy for review and is not ready yet. Transferred = A prescription moved to VA's new electronic health record. This prescription may also be described as "Discontinued" on medication lists from your healthcare team. Take your medications as prescribed by your healthcare team.

Medication Name and Strength	Pharmacy Term	Instructions	Medication Issue/Start Time	Quantity Ordered	Prescription Expires	Prescription Number	Last Dispense Date	Ordering Provider	Facility

Results: Chemistry and Hematology

This section contains the Chemistry and Hematology Lab Results on record with VA for the patient. The data comes from all VA treatment facilities. Radiology Reports and Pathology Reports are provided separately, in subsequent sections.

Lab Results

The included Chemistry/Hematology Results are from the last 24 months, are available thirty-six (36) hours after verification, and include a maximum of the 10 most recent sets of tests. Your reports may be available prior to your VA Provider having an opportunity to review them. Note: COVID-19 results are available immediately after receipt by VA. For some tests, results slightly outside the reference range are not unusual. In addition, not all results are significant. If you have any concerns about your results, contact your health care team. The data comes from all VA treatment facilities. Chemistry and Hematology results from the new VA electronic health record are not included.
