Hello Mr. Sheehan

Tamera Corson is inquiring about the 1095-B form from IRIS that is not compliant. The ticket was forward to 508 Integration based on the fact that it was an interagency form that the VA needed to us, but it was not compliant. This was brought to our attention by Martha Wilkes. I am not aware of the resolution for this issue. An audit was done on the native IRS form and with it being completed by this team, and both failed 508 compliance.

Appreciate any guidance you can provide or the next step that the team can take to remediate these defects.

Regards

Dan Diddle

Hi Tarsha,

At a quick reading, that regulation appears to be about delivering an electronic statement *in lieu* of a paper statement. I understand this to be the ultimate goal of the effort, in general.

That said, our approach to software dev every single current and future requiree And that is it. We are not yet at the poi the MVP version is used, ensure it mee!

With that background, I maintain that n

Hi Tarsha,

I just wanted to circle back here and see if there's been any update on legal review and our MVP release.

Best,
Jordan
