## **What is the Facility Locator?**

Facility Locator is VA's source for Veterans to find details about all VA- and VA-approved facilities across VHA, VBA, NCA, and Community Care. It serves many purposes, from finding basic facility address and phone information to preparing to visit a VA facility.

## **User Access**

### **Who can access these tools?**

Anyone can access VA.gov Facility Locator. It is part of the unauthenticated experience and can be accessed publicly.

### **How can users access these tools?**

Via <https://www.va.gov/find-locations> or "Find a VA Location" at <https://www.va.gov>.

## Navigation

Facility Locator has two primary pages:

### Landing page (search page)

Facility searches are performed on this page by inputting location, VA facility type, and Service type (if indicated). The user can also enable their location through the browser when prompted. When the Veteran lands on the search page, the fields are empty by default, unless he/she has navigated from another page which auto-populates the Facility type field.

The image shows a search form for the Facility Locator. It is enclosed in a light gray box with a blue border. The form contains the following elements:

- A text input field for "City, state or postal code" with a red asterisk indicating it is required. To the right of the field is a blue link with a location pin icon that says "Use my location".
- A dropdown menu for "Facility type" with a red asterisk indicating it is required. The dropdown currently shows "Choose a facility type" and a downward arrow.
- A text input field for "Service type".
- A blue "Search" button located to the right of the "Service type" field.

## Facility Detail page

Additional information about the facility can be found on the Facility Detail page which is accessed by clicking on the name of the location in the search results box.

The location field is mandatory. Users may enter the city, state, and zip or enable location in their browser.

By default, unless the user enters a street address, the search will be performed based on the center point of the location parameters entered (the center of the city or zip code, for example).

### VA facility type

The user must then choose a VA facility type from the drop-down list of options. The field defaults to “Choose a facility type.”

### VA health

If VA health is selected, it defaults to All VA health services, and the user should just click Search.

# Facility Detail Pages

## VA facility types

By clicking on the name of a VA location in search results, the Veteran can view details about the facility. The detail page displayed will depend on the type of VA facility. Clicking on the name of a VA health facility connects to the modernized pages for that location. As of 3/4/2022, this is true for all VAMC systems except Lovell Federal health care and Manila Outpatient Clinic.

The image shows a two-part screenshot. The top part is a search interface with a text box containing 'washington, d.c.', a 'Facility type' dropdown set to 'VA health', and a 'Service type' dropdown set to 'All VA health services'. A red arrow points from the search results below to the facility detail page. The search results show 'Washington VA Medical Center' as the first result, 2.7 miles away, with its address and phone numbers. The bottom part of the screenshot is the detail page for the Washington VA Medical Center, featuring a sidebar with a list of locations, a main content area with a description of services, and buttons for 'Make an appointment', 'Register for care', and 'Pharmacy'.
